257 Cortical Connections to Area TE in Monkey: Hybrid Modular and Distributed Organization
271 Interacting Outcomes Retrieval, Anticipation, and Feedback Processes in the Human Brain
283 Scene Scene Learning Impairment, but intact Recognition Memory, after Early Cholinergic Depletion of Inferotemporal Cortex Followed by Fornix Transection
294 How Reliable Are Visual Context Effects in the Parahippocampal Place Area? New Findings in Humans and Nonhumans
304 The Impact of Second Language Learning on Semantic and Nonsemantic First Language Reading
315 The Cortical Site of Visual Suppression by Transcranial Magnetic Stimulation
328 The Critical Site of Visual Suppression by Transcranial Magnetic Stimulation
339 Adaptive Changes in Firing of Primary Auditory Cortical Neurons following Illumination Shift from Light to Dark in Freely Moving Guinea Pigs
352 Preserving Synaptic Processing across the Adult Life Span: The Modulation of the Premotor-Prefrontal Language System in the Context of Age-Related Amnesia
365 Duration of Coherence Intervals in Electrical Brain Activity in Perceptual Organization
375 The Emotional Conflict: Interference Resolution of Happy and Angry Prosody and Their Valence-Specific Effects
385 Identification of the Hippocampal Input to Medial Prefrontal Cortex In Vitro
404 Neuroimaging under Uncertainty: Dissociated Neural Responses to Ambiguous and Unambiguous Mental State Inferences
415 Human V6: The Medial Motion Area
425 Alteration of Sensory-Auditory Responses to Self-Produced Tactile Stimulation
433 Separate Processing of Texture and Form in the Ventral Stream: Evidence from fMRI and Visual Agnosia
445 Assistive Patch—Functional Evidence of Speech-Related Auditory Anxiety
455 Stereotyped Fine-Tuning of the Excitation-Inhibition Balance in Rat Visual Cortical Networks
465 Activation of Sensory-Motor Areas in Sentence Comprehension
473 Discrimination Between Memory Accuracy and Memory Confidence Following Mild Closure Lesions
483 Consistent Engagement in an Action Observation Network
492 Cortical Representation of Intertrial Time Difference in Congenital Deafness
